NOT JUST PERFECT.

Senator Hill Says Occasionally a Man is Found

Who Doesn't Think Tariff Bill Exactly Perfect.

THE PUBLIC LANDS.

A Plan to Sell Them by Auction Hereafter.

WASHINGTON, March 10.—There is less disposition among senators, especially among members of the finance committee, to discuss the tariff situation than at any time within the past month. Senators Allison, Sherman and Aldrich, Republican members of the committee, have heretofore expressed the opinion that it would be impossible to report the bill for three weeks after its receipt.

The Democratic members who by reason of their superior numbers have this matter largely in their own hands, have not indicated just what concession they will make as to time. Senator Voorhees has said the time should be ample and Senator Jones stated that the Republicans would not be held responsible for a further delay there might be, but neither of these gentlemen have been more specific. Some of the Republican senators expect the opinion that if the bill cannot be compromised it may be necessary to delay its passage until the next session of congress.

Coupled with this statement is an assertion that some of the Democratic senators would not be unwilling to have it after this date. Senator Hill will not outline the position he will take upon the bill until he addresses the senate. However, he said yesterday, as he was opening his mail, occasionally you find a man who does not consider the bill perfect. Men whose business interests are affected by the bill, and who did not receive the consideration which they had asked at the hands of the Democratic members of the Senate Committee, are still asking for hearings. There are representatives of the glass, lumber and tool interests here. The glass men were especially urgent in requesting to-day that the committee should still grant them an opportunity to present their grievances. Sen. Voorhees told them that this now be impossible."

OPENING PUBLIC LANDS.
Congressman McRae's Bill Changes the Entire System.

WASHINGTON, March 10.—Chairman McRae of the house public lands committee has introduced a bill which changes the entire system of throwing public lands open to settlement. The bill is said to be introduced by the interior department officials, who have sought to devise a plan by which such disgraceful scrambles as have been witnessed during the past few years in Oklahoma could be avoided. Briefly, the bill provides the lands shall be sold at public auction. Section 4 of the bill, which makes this radical change, provides that all agricultural lands in the Indian reservations not needed for allotments to Indians, and which are not mineral, and not included in any townsite, shall be disposed of as follows:

NEWS NOTES.
George Cooper Connor, perhaps the most eminent Mason in the South, died at Chattanooga.
James McGowan, who introduced the selling of auction pools in this country, died in Brooklyn.
Senator Bosch of North Dakota has introduced a bill to incorporate the Karsarge Naval Veterans' association.

Cardinal Fransisco Ricci Paraceliano, died of heart disease, aged 61 years. He was created a cardinal on December 13, 1890.

Miss Jennie Lander of Mansfield, Ohio, has been hospitalized at the white house as governess of little Ruth. She is a good linguist.

Representative Graw of Pennsylvania has introduced in the house a bill making \$12 per month the lowest rate of pensionable disability allowed by law.

In the Iowa senate an amendment was adopted to the prohibition bill forbidding the sale of liquors in basements or other floors except the ground floors of buildings.

In the house of representatives McRae of Arkansas has introduced a bill to prohibit the payment of a bounty for the production of raw sugar and to put refined sugar on the free list.

A cablegram received at the navy department states the last vestige of yellow fever had disappeared from the Newark and that the vessel has been released from quarantine at Montevideo.

Lieutenant T. F. Brainerd, the hero of the Kearsarge wreck, had an interview with Secretary Hovey, and has been ordered to accompany the party which will start once for Concord Refit to that the vessel.

A telegraph from Singapore says that in consequence of the scarcity of Mexican dollars, there is urgent local demand for the exchange of a British dollar. The banks and merchants are almost unanimously in favor of the proposal.

Rev. Charles Maclin died at Chicago at the age of 81. He was for sixty years a Congregational clergy man, an excellent pastor, a fine Greek scholar and conversant with English literature. He was a delegate in New York to the first Republican convention, and sat by the side of Thurlow Weed when Mr. Lincoln was nominated in the Chicago convention. He leaves a widow, six children, eighteen grandchildren and three great grandchildren.

If any lands remain undisposed of, having once been offered, they must be opened under public laws of the United States to be paid for at a price not less than that paid by the government for them, one-fifth cash and the remainder in four equal installments.

The act further provides that the secretary of the interior cause public surveys to be made of all land in the Indian reservation and cause town-sites to be located.

GREAT CANAL SCHEME.

A Proposal to Connect Lake Superior With the Mississippi River.

WASHINGTON, March 10.—The most important projects submitted at yesterday's meeting of the river and har-

bors committee was a new one urged by Representative Keifer, of Minnesota, for the survey of a canal route connecting Lake Superior with the Mississippi river. It is proposed by this plan to use the small streams at the source of the Mississippi as connecting links in a canal joining the Gulf of St. Lawrence with the Mis-

sissippi.

New Indian Policy.

WASHINGTON, March 10.—The con-

sideration of the bills for the ratification of the treaties between govern-

ment commissioners and various Indian tribes for the relinquishment of their lands by the house Indian affairs com-

mittee, has resulted in the determination by the committee of a new policy

regarding certain features of such agreements. One of these will be to

require settlers on the lands purchased

or otherwise acquired from the Indians to reside on land taken by them

for a period of three years instead of

fourteen months as now, with the privilege thereafter of paying a cer-

tain amount and obtaining a

title.

A Government Loan Proposed.

WASHINGTON, March 10.—A bill in-

troduced in the house by Repre-

sentative Doolittle, of Washington (by request), sets aside \$1,000,000 as a loan

for twenty years, the interest of which

is to be applied to the support of a

college for the education of daughters

of soldiers and sailors who served in

the armies and navies of the United

States and the late so-called Confed-

erate states. The loan is to be returned

to the treasury less the interest. The

college is to be located in Whatcom

county, Washington.

Promised Day Message.

WASHINGTON, March 10.—President

Douglas is busy preparing his mes-

sage, which will be presented to the

national congress upon the convening

of the spring session on April 1. Gen-

eral Clegg, secretary of communica-

tions and public works, has issued a

Circular to all government inspectors

of railway requesting them to send in

reports as to the condition and pro-

gress of the various roads and other

details to be embodied in the forth-

coming message of President Doug-

las.

Crushed Beneath Falling Rock.

MOUNTAIN, Mo., March 10.—H. H.

Myers, an aged stonemason, while

working in the quarries south of this

city was crushed beneath falling rock

and instantly killed. He leaves a

wife and two sons.

NEW USE FOR TURBINE.

Plans to Substitute It As Motive Power

For Small Craft.

WASHINGTON, March 10.—In view of

the successful results that have followed

the use of the steam turbine as a motive

power for dynamos, it is probable that

before long an attempt will be made to

substitute the engines to propel small

water craft such as torpedo boats and

similar vessels.

RUSSIA AND CHINA.

A Secret Understanding Reached Re-

garding the Pamirs.

SAN FRANCISCO, March 10.—The

steamship Gaelic from Yokohama and

Hong Kong, with advice to February 24, arrived yesterday. It is reported

that Russia and China have come to a

secret understanding regarding the

Pamirs. According to a Shanghai pa-

per, Count Cassati, Russian minister to

the Chinese capital has received the

highest decoration lying in the power of

the emperor of China to give, namely,

the Shuang Lung, or Double Dragon.

First division, first-class.

This honor is the highest ever con-

ferred on a foreigner. The paper re-
